

ZENIT

MERCHANDISING BROCHURE

AVAILABLE NOW

ZENIT CATALOG

CODE: USIRISZENIT22 | USIRISZENIT23

Our high-tech porcelain tiles are produced from natural ceramic clays and minerals, that make it a highly durable and non-porous surface that shows great resistance to thermal shock, UV light, water absorption, staining and even scratching.

Our tiles are also made without resin in "sustainable" manufacturing facilities where materials and water are being recycled.

ZENIT is an apex of your most ambitious architectural design project.
